YEMEN VOWS RELENTLESS STRIKES ON SAUDI ARABIA UNTIL SIEGE LIFTED

Yemen will not cease military operations against Saudi Arabia until Riyadh completely lifts its long-standing siege, says a senior official. Mohammed al-Bukhaiti, a senior member of the Ansarullah political bureau, firmly rejected Saudi attempts to deflect blame for recent airspace violations and the bombing of the Sana'a International Airport.

Recent escalation has seen Yemeni forces strike critical Saudi oil facilities and down hostile drones violating Yemen's airspace.

Riyadh has sought to attribute the presence of a hostile drone over Yemeni territory to inside opponents, attempting to frame the aggression as an internal Yemeni conflict.

Yemen's Ministry of Foreign Affairs condemned the Saudi violation of Yemeni airspace as an unacceptable act of aggression that will be met with a decisive response guaranteed by all international regulations.

NO HORMUZ PASSAGE FOR THOSE TAKING PAYOUTS FROM IRAN'S FROZEN ASSETS

Iran has warned countries and international companies that receiving any compensation payment from Iran's assets frozen abroad will mean they will be completely cut off from transit in the Strait of Hormuz.

Iran's Khatam al-Anbiya Central Headquarters announced on Tuesday that it views a recent announcement by US President Donald Trump about compensating countries and entities for damage inflicted on their ships in the Persian Gulf from Iran's frozen assets as "illegal".

The command, which is in charge of coordinating Iranian armed forces during war and crisis times, said ship owners will face consequences if they receive such compensation.

It added that the damage caused to cargo ships and tankers in recent months has been a result of the insecurity caused by the US military in the region.

It also said that ships that have suffered damage have violated navigation protocols announced by Iran for safe sailing in the Strait of Hormuz and have chosen to travel "through the illegal and unsafe route" south of the Strait.

RUSSIA DEFEATS UKRAINE NEAR KRASNY LIMAN TO LIBERATE DONBASS

Russian troops are defeating the Ukrainian army behind Krasny Liman to advance on Slavyansk and Raigorodok to completely liberate Donbass, said Chief of Staff of the 37th Motorized Rifle Regiment of the 25th Combined Arms Army of the battlegroup West with the calling signal Zhara.

"In the settlement of Krasny Liman, the regiment is carrying out tasks to clear and consolidate the city. Our UAV operators are also firing at the enemy beyond Krasny Lyman to disrupt their logistics and continue our offensive towards Slavyansk and Raigorodok to liberate Donbass. Under the pressure of our assault groups, the enemy tried to fight back with scattered forces, but our soldiers finished them off and forced them out of Krasny Liman, and we succeeded," the officer said in a video provided by the Russian Defense Ministry.

Zhara noted that the drone strike teams are firing at the enemy in almost all directions. - [TASS](#)

US GENERAL WARNS TRUMP AMERICAN MUNITIONS STOCKPILE FOR IRAN WAR RUNNING LOW

General Dan Caine, chairman of the Joint Chiefs of Staff, has informed US President Donald Trump that the country's current munitions stockpile makes any continued escalation against Iran a dubious proposition, the [Associated Press](#) (AP) reported, citing a US official said.

The information was delivered to Trump alongside various scenarios of a further military operation against the Islamic Republic, the news agency added.

Earlier, Trump refuted reports that the United States had paused the full-scale war against Iran due to a shortage of munitions, including missile interceptors. On July 25, The New York Times reported that the US leader had set aside plans to sharply escalate the aggression against Iran for fear that this could drain the Pentagon's antimissile interceptor stockpiles. Prior to that, the newspaper wrote, Caine had cautioned the White House that resuming major combat operations against Iran was doable but that it would dangerously deplete interceptors available to the military's Central Command. - [TASS](#)

HAMAS CONDEMNS ONGOING ZIONIST VIOLENCE IN THE WEST BANK

The fascist Zionist occupation is escalating its crimes against our people in the West Bank, the latest of which was the horrific massacre it committed against the families of the village of Tal, south of Nablus, after its soldiers opened fire directly on them while they were defending their land and properties against colonial settlers' assaults.

As we mourn the heroic martyrs in the village of Tal and pray to Allah for the speedy recovery of the wounded, we affirm that what happened was a field execution crime and another war crime added to the occupation's bloody record against our people, exposing the criminal nature of the occupation forces, which do not hesitate to target and kill Palestinians in cold blood.

We salute the resistance, which rejects to accept humiliation, and the heroic freedom fighter from the steadfast village of Tal, who managed to seize the weapon of one of the Zionist criminals and direct his fire at those attacking our land and homeland, killing one of them and wounding others.

The occupation's approach, based on the shedding of Palestinian blood, will not succeed in spreading terror among our people. Rather, it will increase their determination, steadfastness and defiance and will inflame public anger that will only end with the end of the occupation.

We call upon our people in the West Bank to escalate confrontation with the occupation at all points of contact and activate all means of resistance to make the occupation and its colonial settlers pay the price for their crimes and not to allow them to desecrate our land and holy sites; as well as to let their incursions and assaults against our villages in the West Bank be an opportunity to target them with full force.

BOKEO YOUTH TO BUILD CLIMATE-SMART AGRICULTURE SKILLS THROUGH EXPANDED CLIMATE RESILIENCE PROJECT

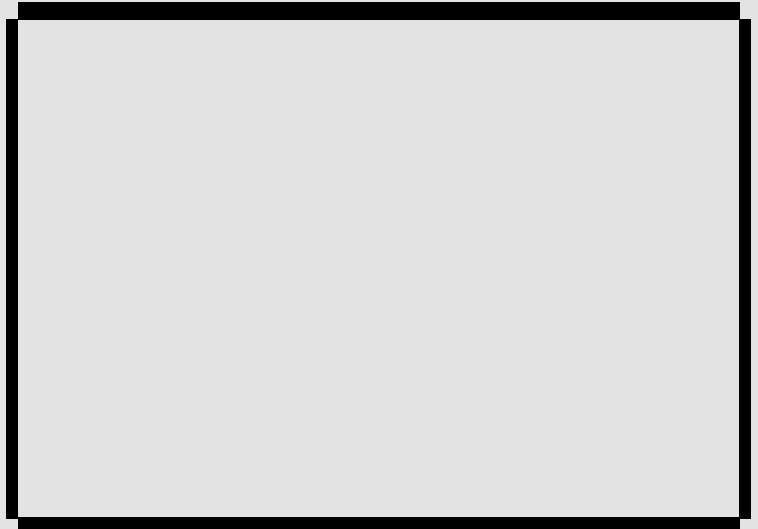

The Climate Change Adaptation in the Uplands through Innovative Practices (CCA) project, a major climate resilience and youth empowerment initiative, officially launched its second phase in Bokeo Province today following the signing of a Memorandum of Understanding (MoU) by the Bokeo Provincial Agriculture and Environment Office, on behalf of the Ministry of Agriculture and Environment, and Plan International Laos.

The project, spearheaded by Plan International Laos in partnership with local government authorities, aims to equip rural youth with the green skills and entrepreneurship capabilities required to adapt to rapidly changing economic and environmental landscapes.

Building on the successes of its initial phase, Phase II expands the project's footprint in Bokeo, focusing heavily on climate-smart agriculture, resilient farming practices, and the creation of resilient, community-led enterprises.

CUBAN PRESIDENT VISITS HAVANA SCIENCE AND TECHNOLOGY PARK

The First Secretary of the Central Committee of the Communist Party and President of the Republic, Miguel Díaz-Canel Bermúdez, highlighted this Thursday the leadership achieved by the Havana Science and Technology Park and advocated for it to become a link between state and non-state sector companies for the execution of research, development, and innovation (R&D&I) projects.

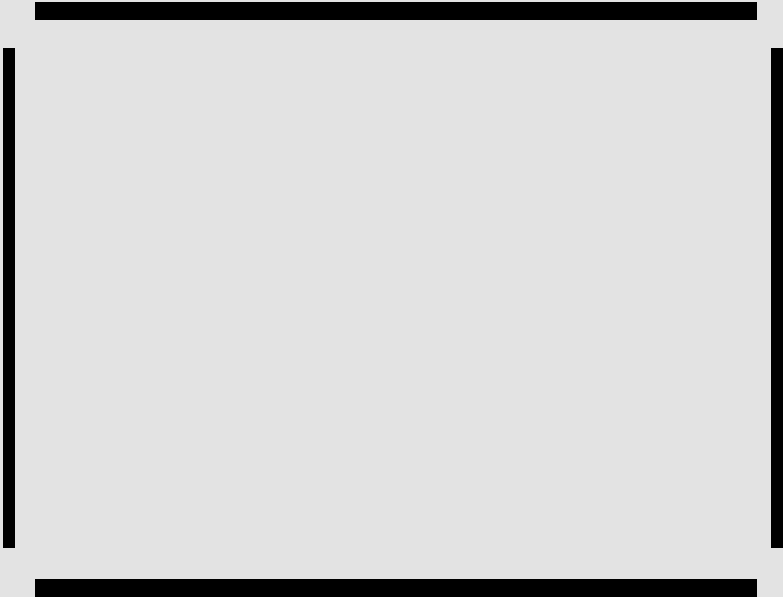

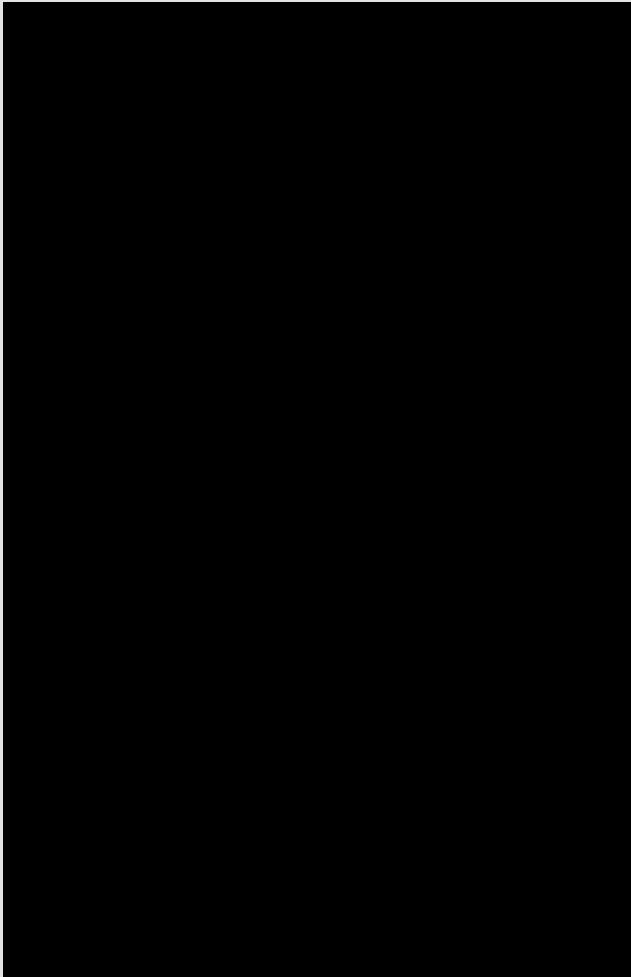

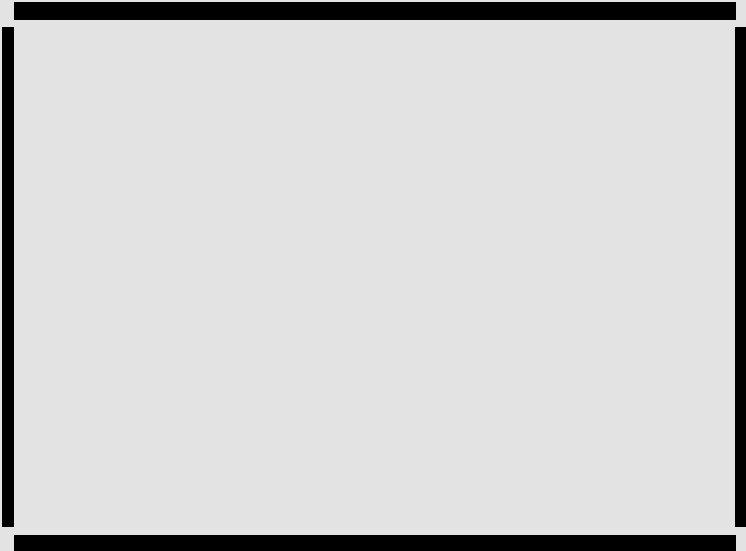

The president visited the park, founded in 2020 and already established as an ecosystem for innovation. In a meeting with executives and representatives of several micro, small, and medium-sized enterprises (MSMEs) that originated there, he highlighted the number of solutions being developed in the country thanks to the talent cultivated at Cuban universities. He called for greater integration, the creation of alliances, and increased awareness of the work being done for the benefit of the nation's development.

Díaz-Canel Bermúdez urged everyone to take full advantage of the new economic and social transformations approved in the country, especially in the ICT sector, which currently has enormous potential. - Granma

WATER POURING SEASON RETURNS TO SON LA

Son La province’s Muong La commune currently has 360 hectares cultivating rice on terraced rice fields. They are the local ethnic minorities’ characteristic way of rice cultivation. Each year from May to late July, during the planting season, the terraced rice fields don a new coat of young green rice plants and the glossy, reflective beauty of water on the fields. Under the sunlight, the terraces shimmer like giant mirrors, reflecting the blue sky, drifting clouds and surrounding green mountains, creating a breathtaking natural landscape that resembles a vast watercolor painting. HISTORY OF VICTORY WILL BE IMMORTAL

The group sculpture depicts the defenders of the motherland in the 1950s who fought at the cost of their lives and youth for the sake of the Party and leader and the motherland in the flames of war.

The group sculpture modeling the brave men of the People's Army and the people with the fluttering national flag in the background represents the figures of the wartime generation who won the brilliant victory under the leadership of President Kim Il Sung, fully trusting only the leader.

In the group sculpture, there can be seen a heavy machine gunner who was showering a fire on the enemy, a young military nurse who was carrying a wounded soldier, the people who rose as one in the assistance to the front and little

members of the children's guerrillas standing as they were in the days of war.

In the fierce war for three years, our people firmly defended their beloved motherland and glorified our country as a country of heroes and a country of miracles.

The days of war gave birth to lots of well-known heroes and unsung heroes.

Among the wartime heroes who defended an inch of motherland at the cost of their blood, there can be found a young soldier who covered the muzzle of the enemy's machine gun with his breast to ensure the advance of his unit, a brave man who threw himself into the group of enemies with a hand grenade in his mouth and an airman who sank the enemy ship by sacrifice attack with his plane.

The immortal feats of the wartime fighters and the people are shining brilliantly with the call "generation of victors".

BEATEN GENERALS

Reputed generals of the US Army received disgraceful name of beaten general during the Korean War.

Dean, commander of the 24th Infantry Division, was captured by a soldier of the KPA on a way of escape to greatly surprise the White House.

MacArthur, commander of the U.S. forces in the Far East, who boasted of his feats in the aggressive wars for over 50 years, lost his position within 10 months after the start of the Korean War shouldering the responsibility for successive defeats. Ridgway who took his place also followed his suit.

James A. Van Fleet was dismissed from the position of the commander of the US Eighth Army, after suffering defeat in his adventurous operation "new offensive".

Clark, who thirdly took the position of the commander of the "UN forces", disgracefully signed the Armistice Agreement recognizing the defeat of the US.

The First Division of the US Marine Corps which was organized in the middle of 18th century was famous unit among the elite units of the US Army. During the Korean War average age of the officers of the division was 35 - 40. However, the famous division was totally scattered in the battle in Lake Jangjin of Korea in November 1950 by the heroic Korean People's Army.

Smith, commander of the First Division of the Marine Corps, buried in group the dead ones before escaping. He deplored that it was the unprecedented one in the history of 175 years of the Marine Corps.

It was only natural for him to receive the nickname of Tomb General.

During the Korean War the US imperialists mobilized huge forces and war equipment to the battle of Height 1211. They conducted dozens of wavelike attacks with about 4000 shells and bombs in a day.

However, the brave fighters of the Korean People's Army heroically fought to honorably defend Height 1211.

The aggressors who were so frightened in the battle that they called the Height 1211 "heartbreak ridge" and the valleys in the bottom of the height "trap valley". - Rodong Sinmun

SOCIALIST HEADLINES

The honourable memory of July 27, the Victory Day that enabled our great motherland to enjoy the everlasting dignity and fame as a strong power, and the heroic spirit of the victorious wartime generation serve as a precious ideological and spiritual nutrient and cornerstone of victory which dynamically encourage our people and the service personnel of the People's Army to accomplish the great historic cause of building a rich country with a strong army.

A splendid art performance was given to mark the 73rd anniversary of the victory in the Fatherland Liberation War in the capital city of Pyongyang on July 27 when the whole country was overflowing with the respect for the heroic defenders of the motherland in wartime and the great honour and self-confidence of the succeeding generation who are firmly preserving and glorifying the high honour of war victory and opening up the wonderful era of transformation for the prosperity of the country.

ART PERFORMANCE MARKS 73RD ANNIVERSARY OF VICTORY IN FATHERLAND LIBERATION WAR

The respected Comrade Kim Jong Un, General Secretary of the Workers' Party of Korea and President of the State Affairs of the Democratic People's Republic of Korea, saw the art performance together with war veterans and persons of wartime merit invited to the celebrations of Victory Day.

When Comrade Kim Jong Un appeared in the auditorium, the audience raised stormy cheers of "Hurrah!"

The performers and audience paid the highest tribute to Comrade Kim Jong Un, the symbol of the mightiness of our Party, state and people and the banner of all the victories and glory.

Comrade Kim Jong Un extended congratulations to the war veterans, the persons of wartime merit and all other people across the country and officers and men of the whole army who are significantly celebrating the holiday of great war victory.

He met with war veterans and sincerely wished them long life in good health. - [KCNA](#)
